

20th BSSR

Refresher Course

Virtual Programme

2021

25-26th March

Refresher Course Programme - Thursday

Thursday 25th March 2021

DAY ONE: STREAM ONE

BSSR AGM - Members Only		
08:30-09:40	BSSR Annual General Meeting	
BSSR Refresher Course		
09:40-09:45	Introduction	Richard Graham
TOPIC - RHEUMATOLOGY		MODERATOR: PHILIP O'CONNOR
" +:&' -1": " "	How and when to image- BRITSpA imaging recommendations 2019	Philip O'Connor
1": " " -1": #	The Rheumatologists' perspective - how imaging in AxSpA influences diagnosis & management	Raj Sengupta
1": # -1": %	Sacroiliitis - pearls and pitfalls	Winston Rennie
1": % -1": &	AxSPA spine pearls and pitfalls	Patrick Omoumi
1": & -1#": " "	Questions & answers session	
Break & Sponsor Interaction		
TOPIC - RHEUMATOLOGY		MODERATOR: EMMA ROWBOTHAM
11:30-11:45	Imaging of synovitis- when and how to use MRI?	Emma Rowbotham
11:45-12:00	The many facets of the Dixon technique	Patrick Omoumi
12:00-12:15	Bone marrow oedema syndromes and CRMO	Geeta Kapoor
12:15-12:30	Role of NM/ PET-CT imaging in rheumatology	Stewart Redman
12:30-12:45	Questions & answers session	
Lunch Break & Sponsor Interaction		
TOPIC - SPINE		MODERATOR: JAMES RANKINE
14:00-14:15	What the sports physician wants to know in adolescent athletes	Paul Jackson
14:15-14:30	Imaging of lumbar pain in the athlete	Eugene McNally
14:30-14:45	Infection - what to do and what not to miss	Bernhard Tins
14:45-15:00	Mistakes in cervical spine trauma	James Rankine
15:00-15:15	Questions & answers session	
Break & Sponsor Interaction		
TOPIC - SPINE		MODERATOR: AMANDA ISAAC
15:45-16:00	When to use SPECT - CT in the spine	David Little
16:00-16:15	Traumatic lesion of the brachial plexus	Radhesh Lalam
16:15-16:30	Nerve sheath tumours: what the MSK Radiologist needs to know	Amanda Isaac
16:30-16:45	What the MSK Radiologist should never miss on MR spine!	Richard James
16:45-17:00	Questions & answers session	
End of day one		

Thursday 25th March 2021

DAY ONE: STREAM TWO

TOPIC - UPPER LIMB		MODERATOR: JAMES TEH
09:45-10:05	Rotator cuff disease	Andrew Grainger
10:05-10:20	Shoulder instability: beyond the Bankart lesion	Christine Chung
10:20-10:30	Imaging superior labral tears in the athlete	Andrew Grainger
10:30-10:45	Shoulder pathology: the forgotten causes	James Teh
10:45-11:00	Questions & answers session	
Break & Sponsor Interaction		
TOPIC - UPPER LIMB		MODERATOR: GAVIN CLAGUE
11:30-11:45	Imaging acute ligamentous injuries of the elbow	Christine Chung
11:45-12:00	Imaging of the distal biceps	Gavin Clague
12:00-12:15	Ulnar sided wrist pain: What the Radiologist needs to know	Justin Lee
12:15-12:30	Imaging of tendons and ligaments of the hand: common pathologies	Jaspreet Singh
12:30-12:45	Questions & answers session	
Lunch Break & Sponsor Interaction		
TOPIC - LOWER LIMB		MODERATOR: ED SELLON
14:00-14:15	FAI - what is the role of imaging?	Jerry Healy
14:15-14:30	Groin pain and athletic pubalgia	Ed Sellon
14:30-14:45	Grading muscle and ligamentous injuries	Andrew Dunn
14:45-15:00	Menisci: normal anatomy, variants and pitfalls	Paul Sookhur
15:00-15:15	Questions & answers session	
Break & Sponsor Interaction		
TOPIC - LOWER LIMB		MODERATOR: PHILIP ROBINSON
15:45-16:00	Patterns of knee ligament injuries	David Elias
16:00-16:15	Impingement in the ankle	Philip Robinson
16:15-16:30	Metatarsalgia	Robin Proctor
16:30-16:45	Impingement syndromes around the knee	Asif Saifuddin
16:45-17:00	Questions & answers session	
End of day one		

Refresher Course Programme - Friday

Friday 26th March 2021

DAY TWO: STREAM ONE

TOPIC - INTERVENTION		MODERATOR: DAVID McKEAN
09:00-09:15	Particulates or non-particulates. What should I be injecting?	<i>Matthew Jaring</i>
09:15-09:30	Hydrodilatation: when, how and what with?	<i>David McKean</i>
09:30-09:45	Update on MSK injections	<i>Otto Chan</i>
09:45-10:00	Suprascapular nerve blocks and ablation	<i>Yaron Berkowitz</i>
10:00-10:15	Questions & answers session	

Break & Sponsor Interaction

TOPIC - INTERVENTION		MODERATOR: THILLAINAYAGAM MUTHUKUMAR
11:00-11:15	Barbotage - how do I do it?	<i>Syed Babar</i>
11:15-11:30	Spinal infection - drainage and biopsy	<i>Richard Hughes</i>
11:30-11:45	Facet joint cysts - aspirate, burst or just BATHe them in steroid	<i>Thillainayagam Muthukumar</i>
11:45-12:00	Image guided muscle biopsy	<i>Dimitri Amiras</i>
12:00-12:15	Questions & answers session	

Lunch Break & Sponsor Interaction

TOPIC - PAEDIATRIC MSK		MODERATOR: KARL JOHNSON
13:45-14:00	MR imaging of paediatric bone marrow	<i>Paul Humphries</i>
14:00-14:15	Paediatric infections	<i>Karl Johnson</i>
14:15-14:30	Paediatric & adolescent bone tumours	<i>Steve James</i>
14:30-14:45	Overuse injuries - taking the stress out of stress injuries	<i>Christine Chung</i>
14:45-15:00	Questions & answers session	

Break & Sponsor Interaction

TOPIC - PAEDIATRIC MSK		MODERATOR: CLAIRE LLOYD
15:30-15:45	Paediatric intervention	<i>Karen Partington</i>
15:45-16:00	Paediatric soft tissue tumours	<i>Raj Chari</i>
16:00-16:15	Osteochondral lesions	<i>Emma Gerety</i>
16:15-16:30	Hip disorders in children	<i>Claire Lloyd</i>
16:30-16:45	Questions & answers session	
16:45-16:50	Closing statement and prize allocation	<i>Richard Graham</i>

End of meeting

Friday 26th March 2021

DAY TWO: STREAM TWO

TOPIC - INFECTION AND TUMOUR		MODERATOR: TOM MARSHALL
09:00-09:15	The diabetic foot - infection v Charcot arthropathy	<i>Helen Marmery</i>
09:15-09:30	Musculoskeletal TB and unusual MSK infection	<i>Michelle Calleja</i>
09:30-09:45	Imaging of infected prostheses	<i>Tom Marshall</i>
09:45-10:00	Don't touch bone lesions	<i>Mark Davies</i>
10:00-10:15	Questions & answers session	

Break & Sponsor Interaction

TOPIC - INFECTION & TUMOUR		MODERATOR: STEVE JAMES
11:00-11:15	Diffuse bone marrow abnormality / multiple bone lesions - metastases and mimics	<i>Prudencia Tyrrell</i>
11:15-11:30	Bone / soft tissue tumour mimics	<i>Steve James</i>
11:30-11:45	Fracture risk and other complications of bone metastases - when to contact the Orthopods	<i>Ramy Mansour</i>
11:45-12:00	Spinal tumours	<i>Asif Saifuddin</i>
12:00-12:15	Questions & answers session	

Lunch Break & Sponsor Interaction

TOPIC: NORMAL VARIANTS & PATHOLOGY		MODERATOR: ROB CAMPBELL
13:45-14:00	Normal bursae of the shoulder and thorax	<i>Rob Campbell</i>
14:00-14:15	Anatomy, variants and imaging pitfalls of the LHB	<i>Catherine McCarthy</i>
14:15-14:30	Normal anatomy around the greater trochanter - relevance to pathology	<i>Gajan Rajeswaran</i>
14:30-14:45	Normal anatomy and pathology of the spring ligament	<i>Nikhil Kotnis</i>
14:45-15:00	Questions & answers session	

Break & Sponsor Interaction

TOPIC - Rapid Knee Session		MODERATOR: KANNAN RAJESPARAN
15:30-15:40	ACL: normal anatomy and partial tears	<i>Graeme Thompson</i>
15:40-15:50	Post-operative menisci	<i>Patrick Omoumi</i>
15:50-16:00	Knee: lateral collateral complex - normal anatomy and relevance to pathology	<i>Kannan Rajesparan</i>
16:00-16:10	Knee: medial collateral complex - normal anatomy and relevance to pathology	<i>Richard Goodwin</i>
16:10-16:20	Knee cartilage imaging - what is relevant to daily practice	<i>Patrick Omoumi</i>
16:20-16:30	Anatomy and variants of the PFJ	<i>Andy Planner</i>
16:30-16:45	Questions & answers session	
16:45-16:50	Closing statement and prize allocation	<i>Richard Graham</i>

End of meeting

Poster Presentations

	<i>Poster Author</i>	<i>Poster Title</i>
1	Syed Haydar	The ‘King’ of Paediatric Musculoskeletal Infection: a pictorial review of the radiographic appearances of Kingella Kingae infection affecting the paediatric hip.
2	Hardi Madani	Ultrasound Guided Shoulder Injection Referral Pathway from Primary Care - improving compliance and reducing wait times.
3	Ramanan Rajakulasingam	Diagnostic approach to tibial tuberosity lesions
4	Ramanan Rajakulasingam	Pictorial review of CT guided spinal biopsy techniques
5	Fern Adams	Terrible Trampolines: patterns of injury due to trampolining
6	Aaron Ray	The Musculoskeletal Manifestations of Haemophilia: A Review of the Imaging Findings
7	James Kho	MRI of the iliofemoral ligament
8	Patrick Whittaker	A review of the evidence for injectables in musculoskeletal radiology
9	Eeke Thomee	Transitional vertebrae on MRI Lumbar spine – are we getting it right?
10	Ghassan Almeer	The posterior lateral femoral contusion sign: An ancillary sign of MCL injury.
11	Ghassan Almeer	The prevalence of iliopsoas tendinopathy in hip MRI for patients with suspected labral tears
12	Leon Sergot	Rectus Femoris – A review of anatomy and common injuries in the athletes
13	Sian Davies	Ankle Impingement: A Pictorial Review
14	Sarim Ather	Imaging in Elderly Low-Force Blunt Chest Trauma
16	Leon Sergot	Ultrasound of the Hamstring Complex – A Primer for the Sports Radiologist
17	Leon Sergot	Calf Injuries – A Pictorial Review for the Sports Radiologist
18	Richard Beese	The use of ultrasound to diagnose bone fractures

POSTER PRIZE

The best poster will win a camera which has been kindly donated by one of our main sponsors, Fuji.
