

Dear colleague,

It is with immense excitement that we invite you to the SAMSIG Maasai Mara Congress, a landmark event set for 15–20 May 2026 at the breathtaking Sarova Mara Game Camp. Unanimously selected by the SAMSIG Committee, this iconic venue promises an unparalleled experience for musculoskeletal imaging professionals.

This fully inclusive package combines a cutting-edge academic program with extraordinary activities, surpassing all prior SAMSIG events. Expect expert-led sessions on the latest in musculoskeletal radiology alongside unforgettable Maasai Mara adventures, like game drives and cultural immersions. It's a bucket-list congress designed to inspire both professionally and personally.

Space is strictly limited to 65 delegates, ensuring an intimate and exclusive event. The Sarova's prime location and high demand mean rooms will fill quickly, so early registration is essential. While the package reflects the premium nature of this unique experience, its value is unmatched, and future congresses are unlikely to be more affordable.

We warmly welcome you to join this extraordinary journey. Visit our website or contact Lizette Worst (lizette@alloverafrica.co.za) for the full program, pricing, and registration details. Secure your spot today for a congress you'll never forget!

Kind regards,

Shaun Scheepers

SAMSIG Chair
