

Morrie E. Kricun, M.D., age 82, of Audubon, PA, and formerly of Radnor, PA, died on Saturday, April 4, 2020, at Einstein Medical Center Montgomery.

Dr. Kricun was born in Philadelphia, PA, on February 23, 1938 and graduated from Central High School in Philadelphia in 1955 (class 204) and Muhlenberg College in 1959. He graduated from Jefferson Medical College in 1963 and completed an internship and diagnostic radiology residency at Albert Einstein Medical Center in Philadelphia. He was a proud veteran of the [United States Air Force](#).

Dr. Kricun had a long career in radiology and was a Professor of Musculoskeletal Radiology at the Hospital of the University of Pennsylvania. He was a dedicated and passionate educator, having taught radiology to many residents for decades. He was an accomplished scholar, having written numerous radiology books, chapters and articles. He was a longtime member of the International Skeletal Society and was awarded a Silver Medal for his lasting contributions. Dr. Kricun also contributed to the field of anthropology by x-raying prehistoric humans to determine their health status. He studied the pre-colonization Australian aborigines and coauthored a book on Neanderthals.

Morrie was a loving and caring person who was well-known for his kind deeds and willingness to provide assistance to those in need. He had many interests and hobbies including travel, classic cars, and collecting memorabilia, and even authored a book on Elvis. He also had a longtime love of gardening, nature and animals.
