

Dr. Sinchun Hwang is a fellowship-trained musculoskeletal radiologist specializing in oncologic imaging. She completed her radiology residency at Long Island Jewish Medical Center and musculoskeletal fellowship at the Hospital for Special Surgery in New York. She is Director of Musculoskeletal Radiology and a clinical attending radiologist at Memorial Sloan Kettering Cancer Center, where she has practiced for two decades.

She also serves as Professor of Clinical Radiology at Weill Cornell Medical College and Associate Editor of *Skeletal Radiology*. Her academic and clinical focus is musculoskeletal oncology, with particular interest in bone tumors.

*“Through the ISS Editorial Fellowship, I experienced a truly rewarding milestone in my professional growth beyond my institution. It was an inspiring opportunity to work with the editors of Skeletal Radiology, each with distinguished and dedicated academic careers. I gained invaluable insight into diverse research topics, journal workflow, special issue commissioning, and the peer review process, while also developing a deep appreciation for the enthusiasm and hard work of authors, reviewers worldwide, and the Springer editorial team. This experience has been both energizing and enriching, shaping my perspective as an author, reviewer, and educator.”*
